

17 September 1958

4:50 p. m.

Mr. Reber,

Mr. Lundahl telephoned and left the following Message:

25X1A Subject: Transmission of the substance of R. Scott's paper to Colonel Kemp. After review of the subject paper here, particularly by [ ] it was concluded that Colonel Kemp already has the salient details well in hand and that there is no requirement at the present time in our opinion for sending this information to Colonel Kemp at his present location.

We have alerted the Air Force to the fact that we would like Colonel Kemp to once again review the paper when he returns to AFCIN to refresh his memory for any details.

New Subject:

25X1A Re the problems [ ] gets involved on: He, ACL, is trying to keep everyone in channels on this to go through you.

(The last message isn't too clear to me, but I had to hang up!)

Claire
